**HEART CENTER**

As an accredited Chest Pain Center designated by the American College of Cardiology as well as the Society of Cardiovascular Patient Care, Trinity Health System engaged in a rigorous evaluation for its ability to assess, diagnose, and treat patients who may be experiencing a heart attack.

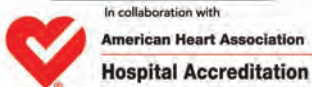

This means that processes are in place that meet strict criteria aimed at:

- Reducing the time from onset of symptoms to diagnosis and treatment.
- Treating patients more quickly during the critical window of time when the integrity of the heart muscle can be preserved.
- Monitoring patient when it is not certain that they are having a heart attack to ensure that they are not sent home too quickly or needlessly admitted to the hospital.

Chest Pain Center Accreditation is the “gold seal of approval” on our full continuum of cardiovascular services. Our services begin in the community with our relationship with 911 and EMS. Local EMS have the ability to transmit 12 lead EKG’s from the field directly to the Emergency Department and the Cardiac Cath Lab. The Emergency Department is skilled in recognition of the patient with chest pain and along with our group of Cardiologists, quality cardiac care is established immediately based on evidence-based protocols. The Trinity Cardiac Catherization Lab is available 24/7 to handle the patient when appropriate. Open Heart Surgery for cardiac bypass and valve disease is also available 24/7 with an experienced quality staff.

**740-264-8020**

## TRINITY'S HEART CENTER SERVICES INCLUDE:

### HEART CATH LAB

Coronary interventions including balloon angioplasty and stenting, groin and radial access available.

### PERIPHERAL LAB

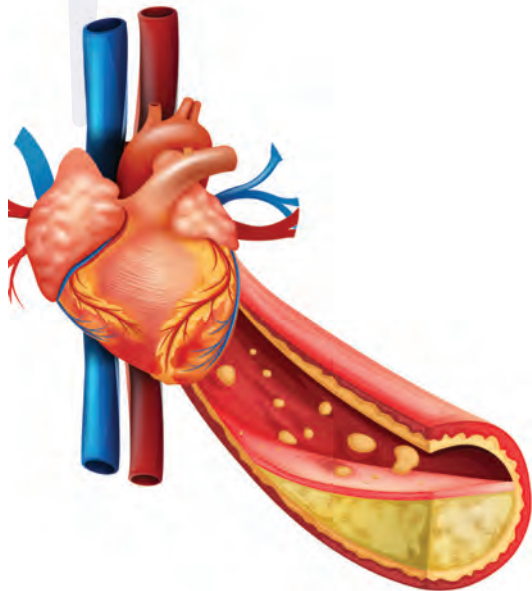

Peripheral interventions of legs and arms including balloon angioplasty, atherectomy and stenting.

### ELECTROPHYSIOLOGY LAB

Electrical studies of the heart, insertion of pacemaker, automatic internal cardiac defibrillator, cardiac ablations and loop recorders.

### CARDIOVASCULAR UNIT

Open heart surgery including coronary bypass grafts, cardiac valve replacement and repair, thoracic surgery and peripheral surgery.

## DIAGNOSTIC TESTING INCLUDES:

### EKG

An electrical recording of the heart that is used in the investigation of heart disease.

### CARDIOVERSION

A corrective procedure where an electrical shock is delivered to convert or change the abnormal rhythm back to a normal rhythm.

### TRANSESOPHAGEAL ECHO CARDIOGRAM

A test done through your esophagus, using ultrasound waves to make images of the heart chambers, valves and surrounding structures.

### HOLTER MONITORS

A portable device for continuously monitoring various electrical activity of the cardiovascular system for at least 24 hours.

### ECHO CARDIOGRAM

Diagnostic test using ultrasound waves to make images of the heart chambers, valves and surrounding structures.

### STRESS TEST

A study that measures the heart's ability to respond to external stress.

### OUTPATIENT DOBUTREX PRIMACOR THERAPY

A treatment to increase cardiac output and minimize the symptoms of heart failure.

### CARDIAC REHABILITATION

A medically supervised program designed to help improve your cardiovascular health.

## TRINITY HEART CENTER

Trinity Heart Center is a team of cardiologists, vascular surgeons, advanced practice clinicians, nurses and technicians. Whether you need a diagnosis, second opinion, ongoing health management or an operation our Heart Center team is here to provide highly qualified care for your heart and vascular needs. Big city care with a hometown atmosphere. You won't need to travel far to find expert care that is provided by friends and neighbors. From the moment you enter Trinity Heart Center, our experts provide you with the care you need. From heart screenings, to treating acute heart attacks, providing electrophysiology heart treatments, peripheral vascular treatments and extending your care through the Cardiac Rehab program to get you back on your feet again. We offer a wide array of free educational resources through Prime Time, including health talks and events within the community to help you stay healthy.
